

HZF12-N4L

Motorcycle Start Battery

Intelligent

Safe

Quick Rcharge

This is a lithium ion starting battery specially designed for motorcycles. It has superior starting performance. Compared with lead-acid battery, the lithium iron phosphate battery cell we use has the advantages of light weight, fast charging acceptance, no pollution and long cycle life.

Safe

- Safe lithium iron phosphate battery cell
- Charging balance management

Intelligent

- Has SOC display, the battery status is clear at a glance

Quick Rcharge

- Used high rate cell, the battery can be fully charged in up to 10 minutes.

Application

- Motocycle starting
- Diesel generator/gasoline generator
- Other special applications

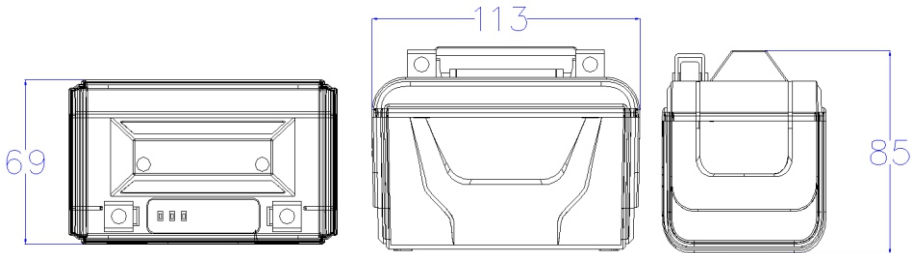

Super Start Battery
Clean Energy For World

SPECIFICATION

Model	HZF12-N4L
Battery Type	LiFePO4
Nominal Battery energy	25.6Wh
Nominal Capacity	2Ah
Nominal Voltage	12.8V
Charging Cut-off Vol.	14.5±0.5V
Cold Cranking AMPS	180CCA
Net Weight	1.0Kg
Dimension[W*L*H]	65*89*113
Charging Temp.Range	0~45℃
Discharging Temp.Range	-10~50℃
Cycle Life ^[1]	1200 Cycles
Protection Level	Ip65
Warranty	1 Years

[1]Test conditions:0.5C Charging/Discharging,@25℃ , 60%DOD
